MEETING ROOMS

Originally designed for business purposes but also suitable as an elegant banqueting room when needed, the new concept of meeting room must be a place that, beside the functional and technical aspects, becomes a multifunctional room perfectly integrated with the other spaces, welcoming, relaxing and comfortable.

Oversized tables, of course, but above all comfortable seats, enveloping backrests and ergonomic armrests, designed for the comfort of those who have to use them for several hours

Precious leathers, plush velvets to add a touch of elegance to contemporary-classic spaces, but also a completely unconventional proposal, an entirely wooden parallelepiped that reveals a surprise. A piece with an apparently simple construction and of great visual effect.
